Below is the report that you have requested ,it has the most used library to print invoice or pdf through printer by connecting the device via bluetooth or wifi

Here is a brief about the columns of the table:

- Library: The name of the Flutter library.

- Wifi/Bluetooth: Whether the library supports Bluetooth or WiFi printers.

- Last Updated: The date the library was last updated.

- Pub Points: The number of stars and forks the library has on pub.dev.

- Easy/Hard/Medium to Use: The difficulty of using the library.

- Compatibility: The platforms the library is compatible with.

- Preference: A score that reflects the library's overall quality, based on the other factors.
